- * Shadow boxes holding anthracite coal.
- * An original window sash. Found in the 1st floor brick wall (west side).
- * A flue escutcheon (shield) used in a potbelly stove. Found in the 2nd floor ceiling.
- * A mortise-and-tendon beam. Found in the 2nd floor frame structure to support the 2nd floor.

* An outdoor light fixture. An enameled light bulb reflector.

You are invited to stop by the Trailhead and see these special items.

Building Photographs - Preserving Today For Tomorrow's History

The September photo from our [Buildings web](#) shows part of our changing history:

When this photo of an Acme Tea Co. store was taken, about 1920, Best Eggs were 18c, Biscuits 6c, and so on. Acme sold [margarine](#) too; by 1916 they were paying the state for an annual license for the store. The house that Acme surrounded was absorbed by the store, and still is part of it, but it's no longer an Acme. It has been in the Seidel family for 118 years, and been a store for 101 years, on a main street in Lower Merion. Can you figure out where?

Click [here](#) for photos of the handsome-roofed house and the store surrounding it.
